

CAMOUFLAGE

FROM THE TURNUPTHEMIKE LIBRARY.

Place each of the 26 letters of the alphabet once in the grid below to form a common word of *five or more letters* reading across in each line. Not all the letters in each line will be used; it's up to you to determine which ones are needed. Some letters may fit in more than one of the empty squares to form familiar words; however, only one arrangement of all of the letters of the alphabet will complete a word in each row. Hyphenated words, proper nouns, and plurals are not used.
